
I can help out on a building site if....

Posted by james - 2008/02/03 16:27

hi

Im currently completing an Msc at Centre for Alternative Tech, its all about alternative building methods. However, there is to much talking and reading and not enough doing..

are you using alternative methods and need a hand?, or could I just come by and check things out. I've got good DIY skills.

james in southville

Hi James,

My fiancee has a friend who build a straw bale house. I'll try to get some info from them.

I'll be in Bristol after from the 15th. If you're not at the CAT, it'd be nice to meet up.

hey selim

yes, if your about bristol, lets have a cuppa

im in southville, near the river. But will pop on my bike to get anywhere local.

james
